TABLE I
AREA, HOUSES AND POPULATION

THIS table shows for each division the area, the number of towns and inhabited villages, the number of occupied houses, and the total urban and rural population, male and female.

2. The Divisions are arranged in this and other Tables in the order of their importance, *viz.*, Baroda, Kadi, Navsari, Amreli and Okhamandal.

3. Baroda Cantonment is treated as a part of the City. Separate figures for it are given only in Tables IV and V below those for the City. The area of the cantonment is only one square mile.

4. Population statistics by religion and literacy for Mahals (Talukas) and Peta Mahals are given in the State Tables I and II at the end of this volume.

5. As to the difference between some of the areas here shewn and those given in the Imperial Table I of 1911 the following table summarises the variation:—

Name of the Division	Area in 1911	Area in 1921	Reason for variation
1	2	3	4
Baroda including City .	1,898	1,922	The increase is due principally to increase in Savli, Vaghodia, Karjan and Baroda Talukas on account of the survey of areas hitherto in dispute between Sarkari and alienated villages.
Kadi	3,023	3,046	The increase is due to measurement of Wanta lands and unsurveyed alienated villages in Mehsana and Vajapur and to corrections in measurements in other areas.
Navsari	1,914	1,807	The decrease is due to the forest reserves in Umarpada and Vajpur being traversed, the previous figure of 160 sq. miles being only an estimate. The area of Son-gadh proper previously given was a mistake.
Amreli	1,072	1,077	The increase is in Kodinar Taluka where the previous figure was a mistake.
Okhamandal ..	275	275

TABLE II
VARIATION IN POPULATION SINCE 1872

THIS table compares the population as now ascertained with that of the five previous censuses.

2. Adjustments previous to 1911 have been already noted in the Imperial Tables Volume of 1911. The only administrative change during the decade has been the separation of Okhamandal Mahal with Beyt from Amreli Division and its constitution as a separate administrative unit under a Commissioner.

TABLE IX

EDUCATION BY SELECTED CASTES, TRIBES OR RACES

THIS table repeats the information given in Table VIII in respect of education, with this difference that, whereas in that Table the population is distributed by age and religion, it is here arranged, according to selected castes, tribes or races; the minor castes, tribes and races have been left out of account altogether. The castes have been arranged alphabetically. Figures for Hindu and Jain sections of Vania castes, as also for Hindu and Animist sections of the early tribes have been given side by side.

TABLE XII
INFIRMITIES

THE infirmities recorded at the Census were Insanity, Deafmutism, Blindness and Leprosy.

2. The table is divided into two parts. Part I shows the distribution of the persons afflicted according to age and Part II their distribution according to Divisions.

3. Some afflicted persons were returned as suffering from more than one infirmity. In the table they have been shown under each infirmity. This explains why the total afflicted in columns 2, 3, and 4 does not agree with the total of the figures for each separate infirmity, but is less by 37 as 29 persons are afflicted with double infirmities and 4 with triple. The following is a list of these combined entries :—

					Total.	Males.	Females.

Insane and Deaf-Mute	14	6	8
Insane and Blind	8	1	4
Blind and Leper	3	1	2

Sub-Castes have not separately been shown in this census, except in regard to Brahmans, Kanbis, Kolis and Vantias. Sub-divisions of sub-castes have not been shown. As far as possible items that did not appear to be true caste names have been eliminated from the return and added to the castes to which they appeared to belong after such inquiries, local and otherwise, as could be made within the limited time available. TABLE XXI

OCCUPATION BY SELECTED CASTES, TRIBES OR RACES

THIS table shows the various occupations which are followed by certain selected castes, tribes and races. The arrangement and selection of castes follow Imperial Tables IX and XIV. Columns 6 to 9 are intended to throw light on the extent to which traditional caste occupations are followed while columns 10 and 11 are designed to show how far castes have retained their traditional functions with other occupations as subsidiary. The figures in column 12 and the subsequent columns are exclusive of the number shewn in columns 6 and 7 as following the traditional occupation. Asterisks have been placed against the figures in those columns which are affected by this arrangement. Columns 3 and 4 are the totals of columns 6 and 7 and columns 12-61.

STATE TABLE I

AREA AND POPULATION OF MAHALS (TALUKAS) AND PETA MAHALS

As at the last Census, the main statistics relating to the Talukas, their population, variation since 1901, densities, distribution by religion and the main figures for literacy by talukas and main age periods are herein embodied in two State Tables tacked at the end of the Imperial Tables Volume. State Table I contains the area, houses and population of the State by Talukas, showing density in each taluka and variation since 1901.

2. The effect of the settlement of boundary disputes between Sarkari and alienated villages, the measurement of hitherto unsurveyed tracts, and the transfer of villages *inter se* on the areas and populations of talukas has been calculated and the actual areas as given in the latest figures are shown. Thus *e.g.*, in regard to Baroda Mahal the effect of transfer of 11 Villages to Savli, and of 8 villages to Vaghodia has been calculated. In Vijapur, Patan, Sidhpur, Chanasma and Harij Talukas, similar transfers have resulted in changes in area. The Traverse Survey of the forest areas in Songadh and Mangrol, and the measurement of the disputed Wanta lands and alienated villages in Vijapur, Mehsana, Harij and Chanasma have led to changes in area, while in consequence of the settlement of boundary disputes of the kind referred to above this State has gained in area in Baroda, Savli, Vaghodia, Karjan, Dehgam and Chanasma talukas. In Kodinar, the figure given previously was a mistake. Wadi Salher, towards the South of Songadh, about the jurisdiction of which there was a dispute with the Bombay Government since 1898 was formally ceded to this State in 1918, but as it had been already surveyed and censused by this State since 1872 no change in area or population was effected by this formal transfer.

3. The changes in area above referred to have not affected the population of the State, or of the Divisions. In regard to boundary disputes with the British Government or other Indian States, it may be stated that no inhabited village on the State frontier has changed hands during the decade.

4. The Taluka of Velachha in the Navsari Division was amalgamated for administrative convenience with Umarpada and Vakal Peta Mahals and renamed Mangrol in 1916.
